

Performance

Magnetic performance	4,000 Gauss
	Patented Micromag style core
Volume	0.13 gal (500 ml)
Pressure	43 psi (3 Bar) operating pressure
Flow rate	14 gpm (3 m ³ /h)
Collection Capacity	0.9 lbs (400 g)
Temperature	212°F (100°C)

Construction

Magnet material	Rare Earth Neodymium Iron Boron
Mesh filter	0.5mm, quick release mesh (for cleaning)
Valves	1" NPT (1.25" NPT adaptors included in kit) OR 1" Press connections
Includes	Additional Automatic Air Vent that has been packaged along with unit separately. The auto-vent will automatically release trapped air maintaining heating efficiency.

Warranty Industry leading 3 years

It's all in the box....

All you need to fit and service BoilerMag is contained in a simple retail friendly off-the-shelf package.

- BoilerMag filter unit
- 2 x 1" NPT connections (2 x 1½ NPT adaptors) OR 2 x 1" Press connections
- Automatic Air Vent
- Bowl wrench/cleaning tool
- Product guide
- Drain valve wrench
- Boiler sticker
- Spare o-rings

Try our range of high intensity filtration systems for large commercial and industrial installations as well as our system treatment chemicals:

BoilerMag XL
(filter to suit 1½" pipe)

BoilerMag XT
(filter to suit 1½"-12" pipes)

BM1 Inhibitor & Test Strips
BM3 Cleaner & Test Strips

V6    

WITH AUTOMATIC AIR VENT
FOR EXTRA CORROSION PROTECTION

Complete Hydronic System Protection

Full Flow Filter

- Removes sludge and scale
- Dual flow technology™
- Premier performance
- Patented magnetic circuit
- Built to NSF-61 Standards (Domestic water applications)

*Available in NPT or Press Connections

BOILERMAG 3 YEAR WARRANTY

3 STEP SOLUTION

High Performance Air, Dirt, and Magnetite Separator

Combining high performance with ease of installation and servicing, BoilerMag uses tried and tested patented magnetic technology to remove virtually 100% of magnetite (sludge) and scale on the first pass through the filter.

Featuring "Dual Flow" technology it is the perfect choice for residential installations.

1" NPT (1.25" NPT adaptors included) OR 1" Press connections

Install/Clean in minutes, protect for years

Any direction install (pipework or filter)

High performance dirt removal

Includes Automatic Air Vent

Easy "in-line" installation

No block feature

***Best value option**
Why go through the trouble of purchasing separate boiler filter components when BoilerMag, The Ultimate Filtration Solution, offers all necessary components in one package?

Getting to Know Your BoilerMag

BoilerMag is designed for performance and practicality. The illustration below highlights the key features for installers, service contractors, and property owners.

1 Simple flush access point - flush attachment available separately

2 Air vent/chemical dosing point

3 360° Adjustment - allows installation at any angle either pipework or filter

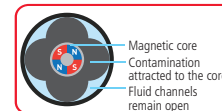

4 Requires minimal access space - unit does not have to be fully removed from pipework

5 High quality isolation valves included

6 Easy "In-Line" installation

7 No block mesh guard - removes scale and other non-magnetic debris

8 Patented magnetic circuit - ensures system cannot block

9 Patented magnetic core - large magnetic surface area

10 Dual flow technology - maximizes dirt collection performance by ensuring that magnetite is exposed to the magnetic zone for longer
